

Attention; WHMD Board Members

Over the last few days there has been some confusion on the Internet services provided by our district.

Falcon Broad Band is the carrier of these services here at WHMD.

The Concern I heard from Eddie was, it is not secure and that woodmen Hills would be the subject of a perverted scandal.

That the internet keeps tracks of the user's sites visited by Woodmen Hills.

I contacted the representative at Falcon Broadband and she explained that she has spoken to Eddie before.

But assured me that the information sent by wireless connection doesn't work like that. It's not the same as a wired connection.

My concern here that this is a public facility and we pay for the wireless service.

Why shouldn't we as residents be able to take advantage of it if needed. This would encourage people to make better use of the facilities. Thus giving them a reason to visit.

It certainly doesn't cost anymore and doesn't interfere with the employees work and it does not affect the speed of the service.

I would like this board to entertain an investigation into it and

I have provided the contact info here for the person I spoke with

Carrie Garza 719-886-7932 Falcon Broadband service advisor.

I have spoke with Eddie as well as Larry today on the subject.
