

Dave,

These questions are requiring very specific and detailed answers. These require some research and everything you seek is in the official minutes of the district. Our time is currently spent on pushing through the bond documents, working the responses for the Cease and Desist and renewable water acquisitions to name a few.

I would like to encourage you to please, come in and research these in the official minutes. If you do not want to come into the district office, I believe most of these official minutes are online for your review.

I have asked Debra to please do research and compile a presentation on the history of Covenants in Woodmen Hills. She has agreed to this task, and said she could have it ready for the July meeting. I have also asked her to prepare a handout (like the Paintbrush Hills history she compiled from the documents and minutes).

Thank you for expressing your concern and showing interest! We have added this onto the July agenda so all residents may benefit from this information.

Sincerely,

Jan
